

Module 1: Integration.

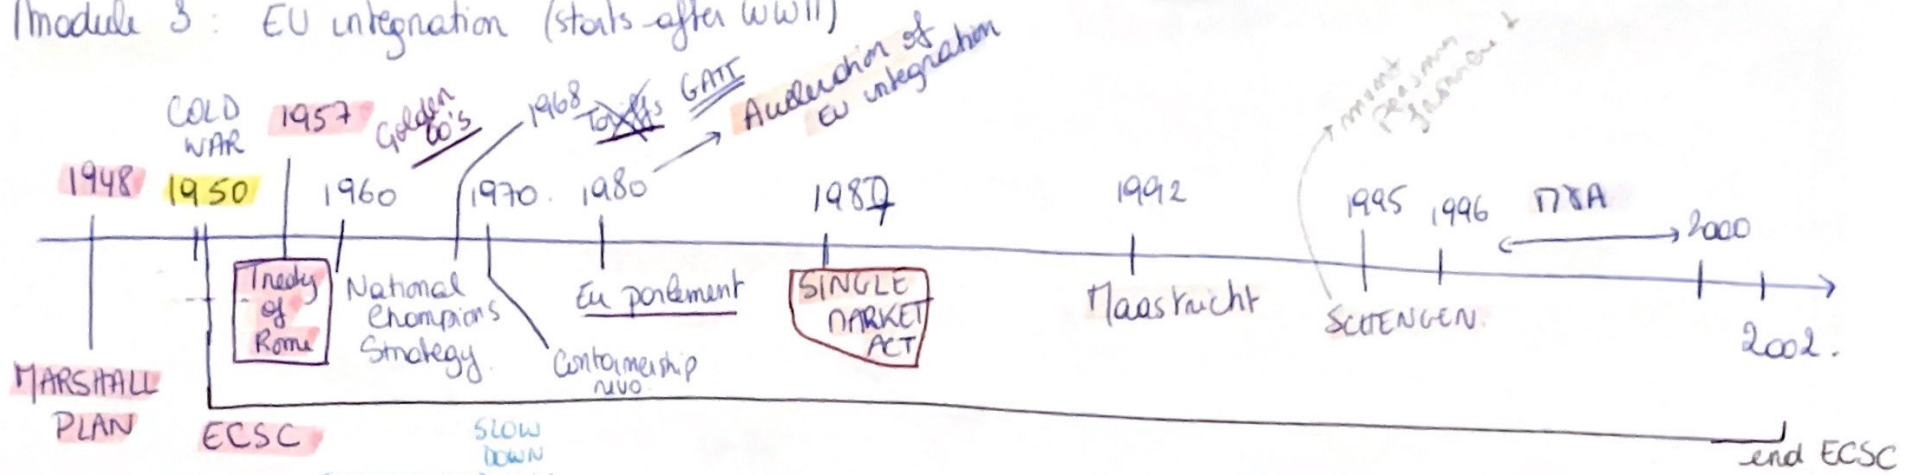

Module 2: US integration + EU reaction

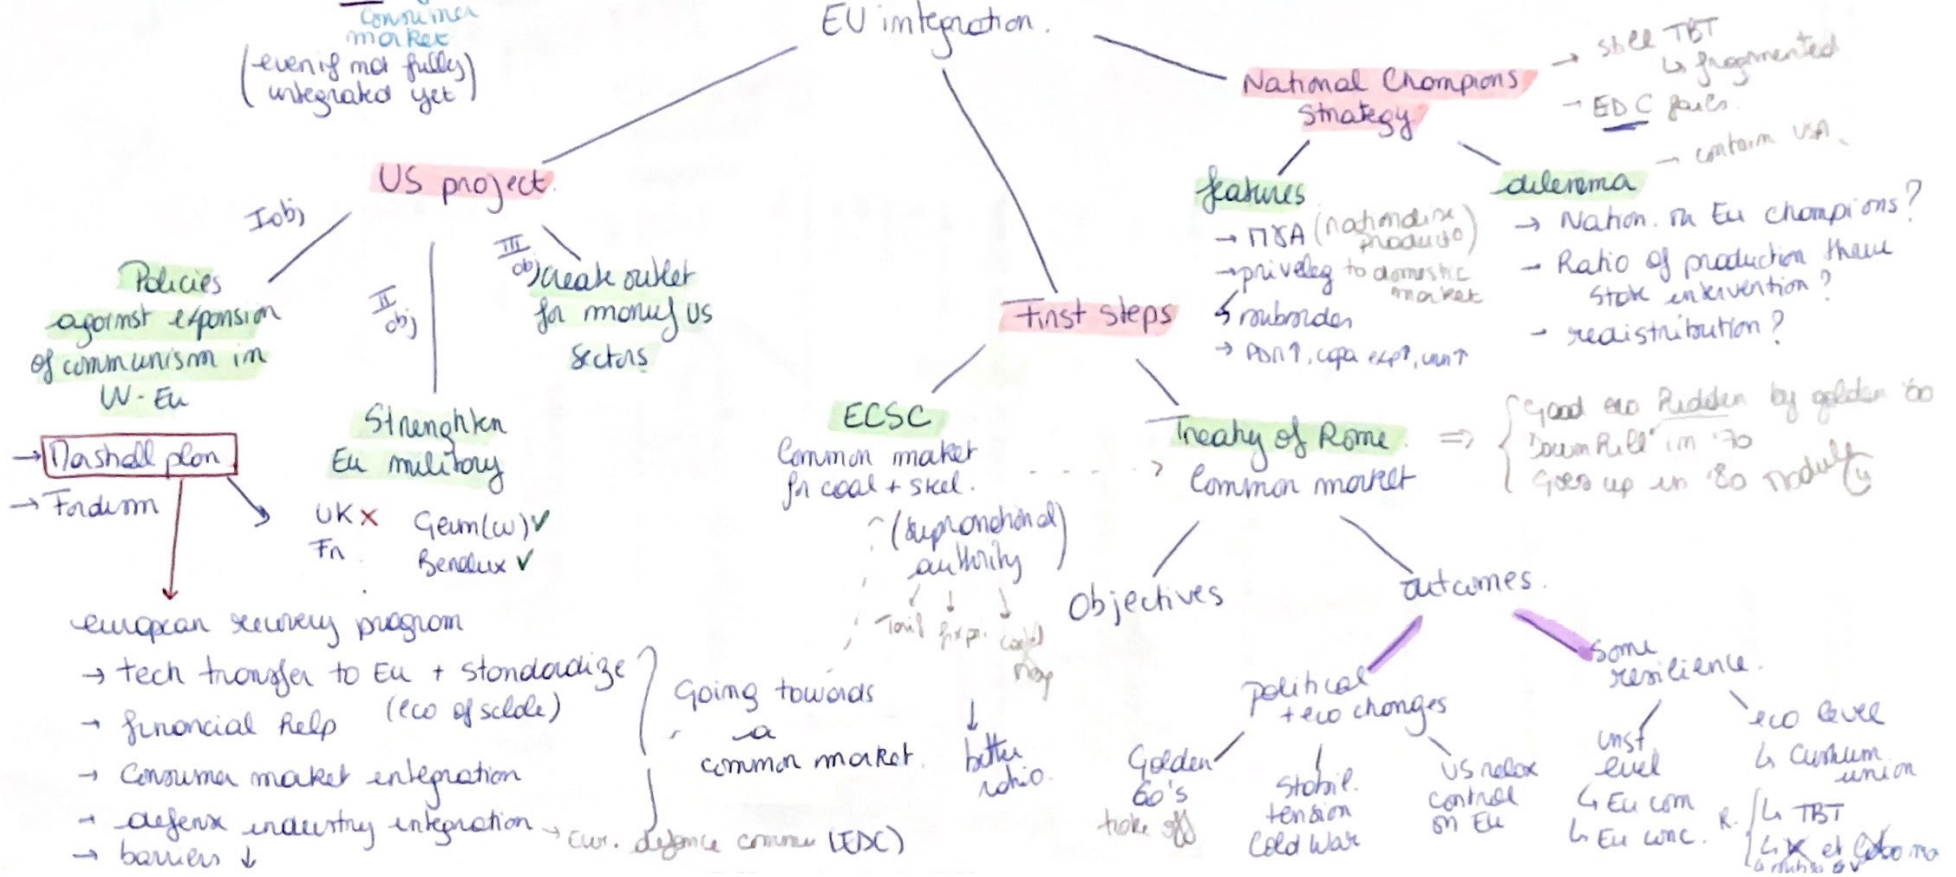

Module 2: Eu reactions.

Module 3: EU integration (starts after WWII)

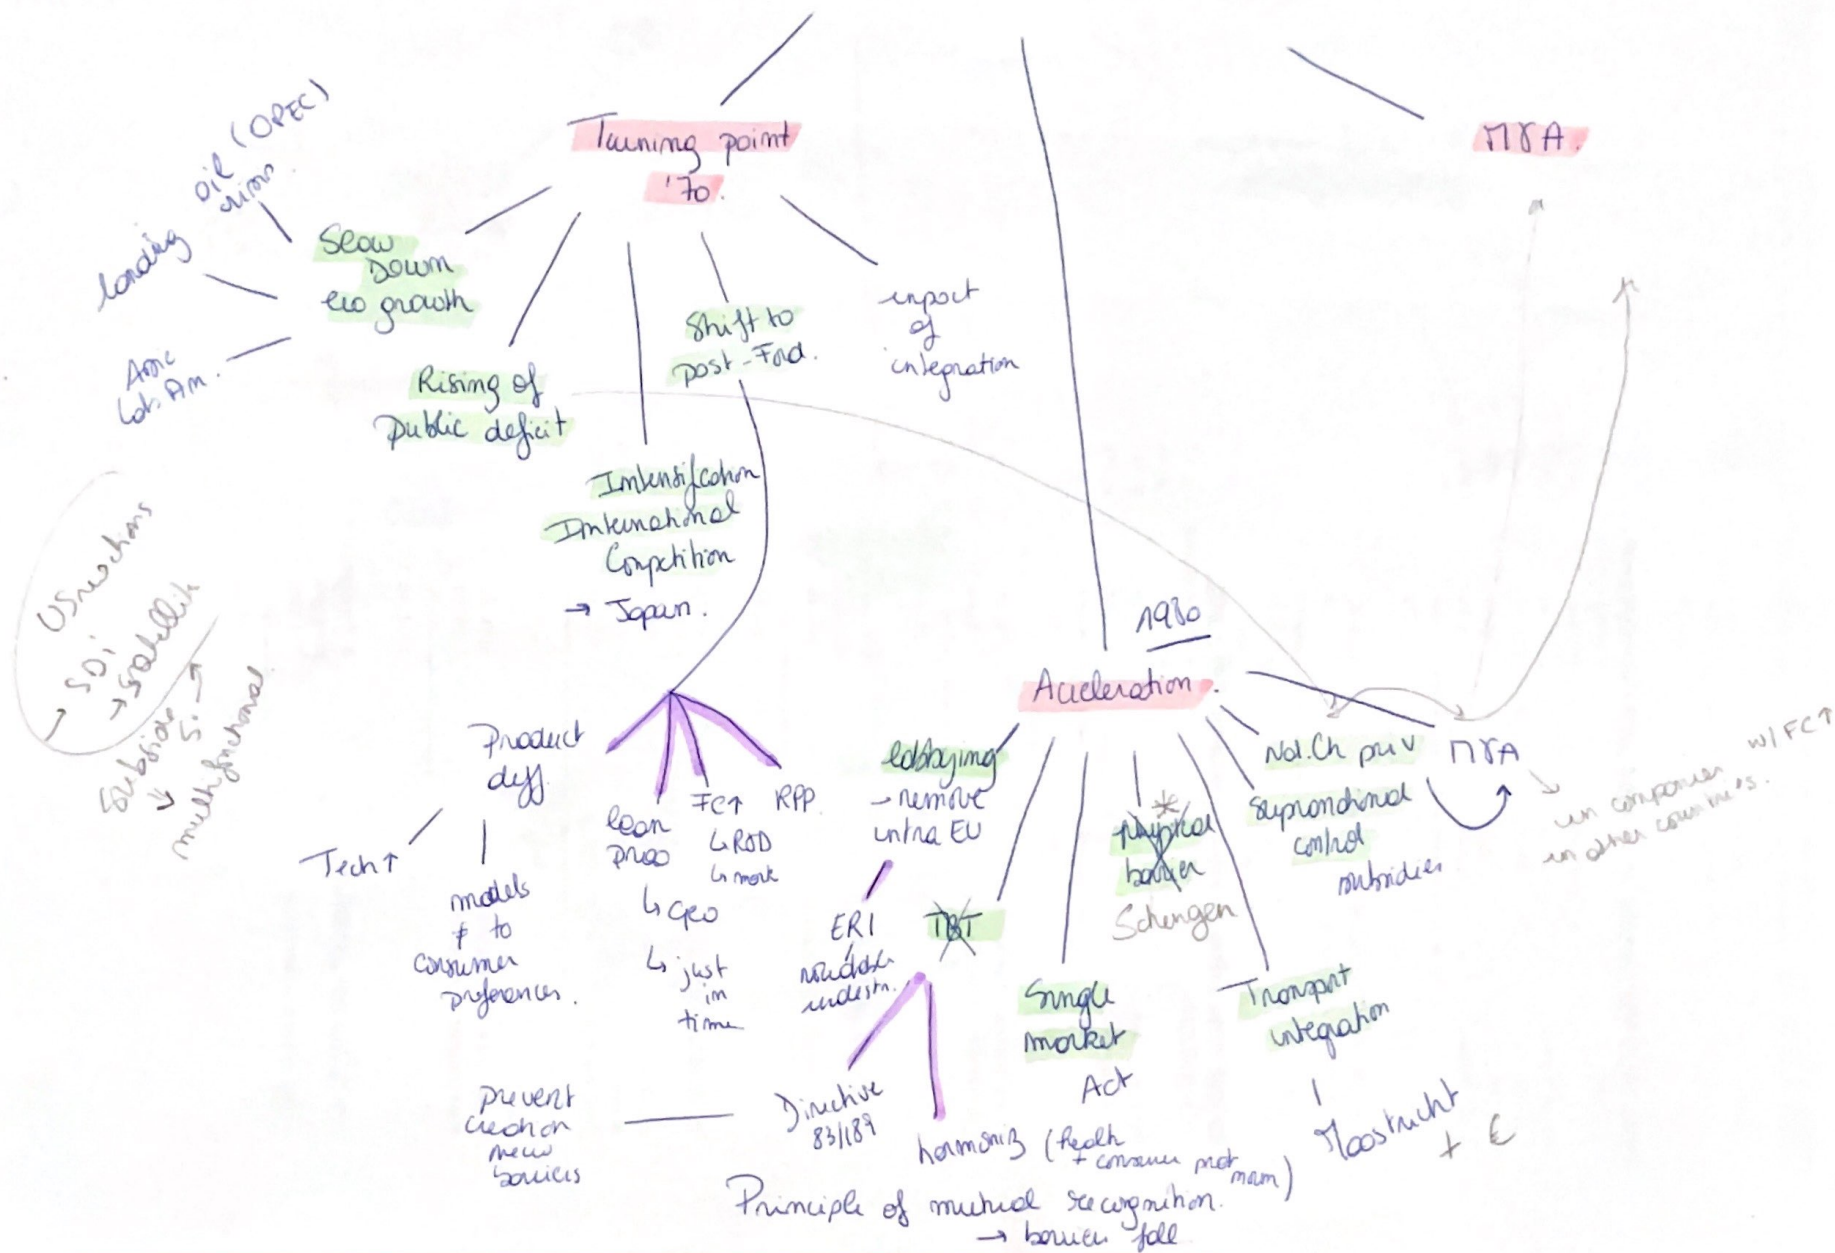

EU integration.

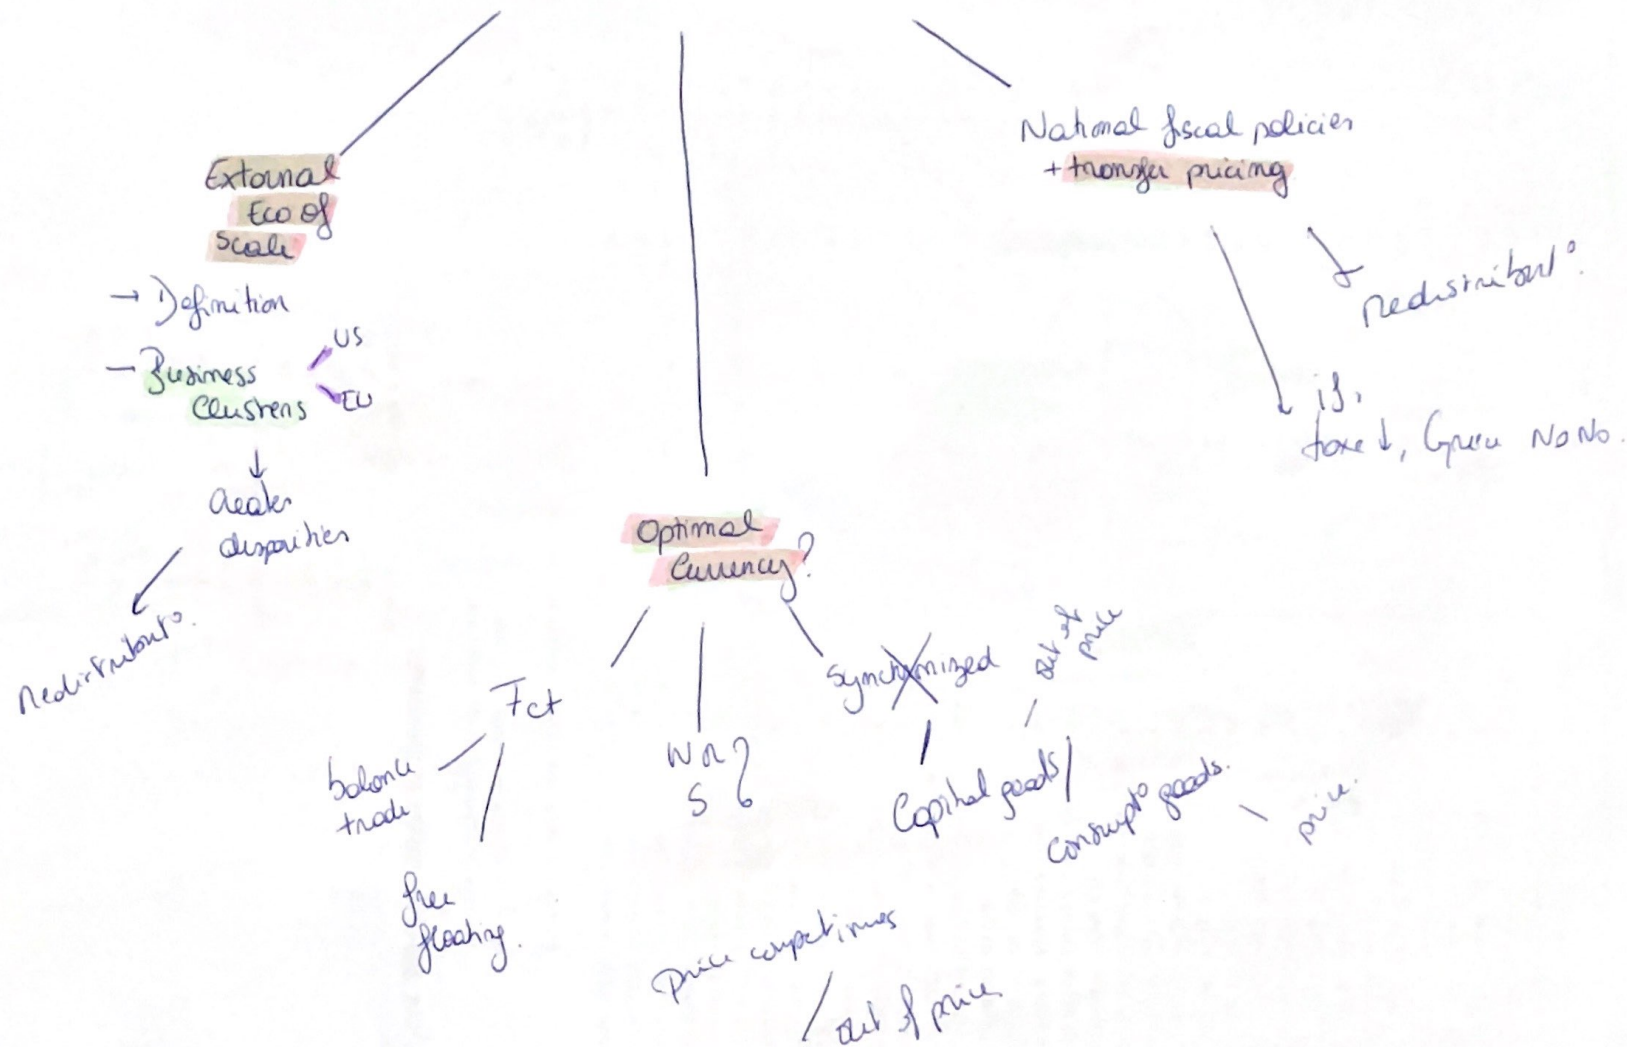

Module 4: Acceleration EU integration.

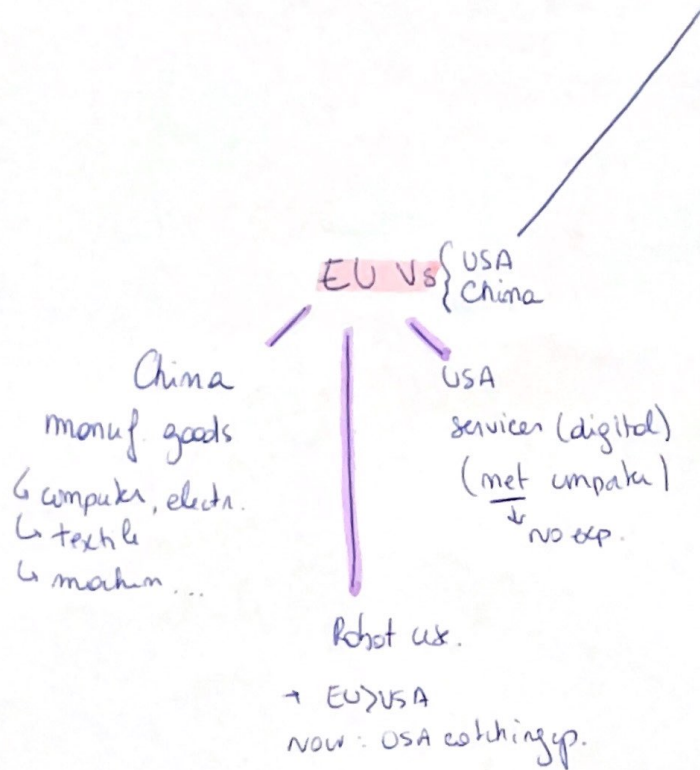

* mvt of people, goods

Module 5: 3 structural issues

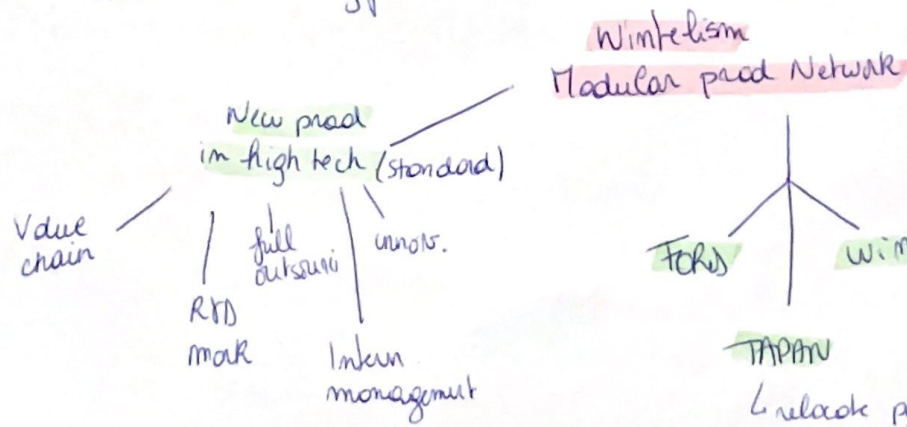

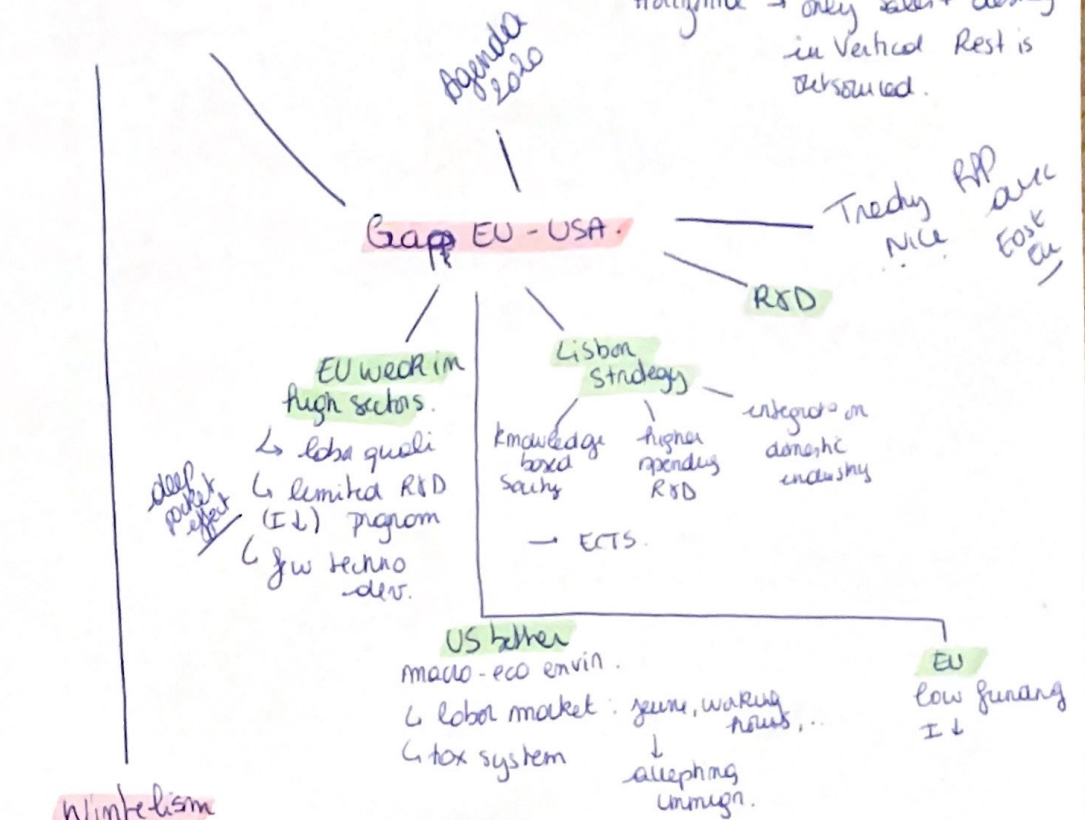

Module 6: The EU today (2000 - Now)

Vertical → all steps value chain produced in same company

Horizontal → only sales + design in Vertical Rest is outsourced.

Not forced to be traditional otherwise @ for outsourcing (give scope)

Value is made by the design

Why spend \$ on prod capacity, warehouse, ...

relocate all manuf.

Network effect: everyone is on Fb, you have to be.
