

EU Business & Economics

Spring 2026

2X

Manuel Prevot

« *EBE* » *Step by Step* *between theory and reality...*

Ch 1

CONTEXT

(History & Functioning
& Law)

We are HERE !!!

Ch 2

FUNCTIONING

(ECO & EURO)

Ch 3

POLICY

(EU Policies)

Ch 4

BUSINESSES

(Corporate & Consumers)

European Competences

- ▶ Some are Exclusively managed by the EU: International trade
- ▶ Some are shared between EU and state members: Environment
- ▶ For some EU is just a support function: Health (Covid)

Activity : watch the video

[Competences of the European Union](#)

Type of Competences

- ▶ Exclusive (Only EU) : Customs Union , Competition rules, monetary policy, International trade (Trade Agreements)
- ▶ Shared : Environment , Consumer protection, Energy, Mobility
- ▶ Supporting: Education, health, Culture, Tourism

Principles of competences

- ▶ Conferral: EU acts only within powers given by EU treaties
- ▶ Subsidiarity: EU acts only if objectives can't be achieved by members states
- ▶ Proportionality: EU actions must not exceed what's necessary

Sources and Hierarchy of EU Law

- ▶ Primary law ; Included in treaties

- ▶ Secondary law : Legislation made by EU institutions

- ▶ Soft Law : Non binding guidance : recommandation

▶ EU Law

Domestic Law

Types of EU Legislation

- ▶ Regulation : Directly applicable (no national action needed)
Ex: Roaming fee are no longer allowed for telecoms
- ▶ Directive: Binding as well but has to be implemented in domestic law
Ex: Quality of underground water
- ▶ Decision : to specific addressees and directly binding
Ex: Obligation on Google to open its connected platforms to competitors

Legislative procedure

Ordinary Legislative Procedure (OLP)

Main process

- ▶ 1 Commission proposes (initiation)
- ▶ 2 EU parliament and Council of EU Co-decide

In a first reading Parliament may approve or amend the proposal

If the council is OK , the law is adopted

- ▶ 3 If disagreement between Parliament and council

→ Second reading with amendments

If again not OK by parliament

→ Conciliation Committee for a new draft in third reading

Special Legislative Procedure

2 possibilities

- ▶ Consultation procedure : Council adopts the act after consultation of Parliament which gives only an opinion (can't block or amend the proposal)

EU citizenship right

- ▶ Consent procedure : Parliament must approve or reject but can't amend

Accession of new EU members

Unanimity or Majority ?

Since the Lisbon treaty , most of the acts are adopted by a qualified majority by the Council in codecision with the Parliament

A qualified Majority represents at least :

- ▶ 55 % of state-members (15/27)
- ▶ 65 % of the population (292 mi/450mi)

But for some matters (tax, security,...) unanimity is required

Page 24 : Impact on your daily Life

Give examples . Which kind of competence ?

Sectors	Examples in YOUR daily Life
	(For Whom ?)
Climate Action & Agriculture	
Health & Cohesion	
Economy & Finance	
Business & Consumption	
Industry & Machinery	
HighTech & Digital Age	
Justice, Security & Defence	
Migration & Border Management	
External Action	
...	

Workshop

- ▶ Flight of Drones over urban areas for delivery of materials

Which kind of competences ?

Type of drones

Zone overflown

Type of materials

- ▶ Role playing game (commission, parliament, Council of EU)
